Trial Manager at Entos Pharmaceuticals, Canada

Abstract

The COVID-19 pandemic has impacted every aspect of our lives, including the public health sector. In Canada, this crisis has challenged the healthcare industry in unprecedented ways, from managing surging cases to ensuring access to essential medical supplies. As we continue navigating through these uncertain times, it's important to take a closer look at how the Canadian public health sector is responding and adapting to these new challenges. Join us as we dive into a case study on the effects of COVID-19 on Canada's public health system and explore lessons learned along the way.
