ABSTRACT

Medicinal plants are natural gift to human lives to promote disease free healthy life. Phyllanthus emblica, commonly known as amla is widely distributed in tropical and subtropical areas and has therapeutic potential against deleterious diseases. Earlier it becomes a notable fruit for its rich amount of vitamin C, polyphenols such as tannins, gallic acid, ellagic acid, flavonoids like quercetin and rutin.

INTRODUCTION

In this century, unparalleled medicinal inventions have been achieved to resolve incaulculable diseases, including cancer and AIDS. Yet most of the investigation studies have been conducted in all over the world against newly discovered diseases. Thus, we have forgotten our ancient medicines such as Siddha, Ayurveda and Unani systems. In spite of synthetic medicines like antibiotics, steroids and advanced surgical practices gives faster action and bring quick relief, it cause some life threatening side effects including death. Furthermore, regular ingestion of antibiotics and some pain killer tablets may produce toxic substances in liver. The synthetic drugs may be effective on one sickness and cause another trouble. Thus, men gradually start living against nature and lost his life. Ancient people had been live long when compared to nowadays. Because of their life style, which is completely depends on nature. Traditionally life threatening diseases have been dealt with herbal medicines which are taken as food not as medicine or drug. In previous studies, authors postulated that phytochemicals present in fruits and vegetables could reduce various risks of diseases owing to prevent the oxidative damage produced by free radicals[1]. Phyllanthus emblica (amla), one of the most common medicinal herbs has been widely used in ayurvedic medicines[2]. In this article the nature of amla and its medicinal properties have been briefly discussed.

AMLA: A NATURAL WONDER

Amla is one of the precious gifts of nature to mankind. Fruit known in Sanskrit as- Amalaka, Hindi- Amla, Bengali- Amalaki, Nepalese- Amalaki, Tehu- Usirikai, Tamil- Nelliaku. Amla is a rich source of vitamin C, among 1 gm of vitamin C per 100 ml fresh juice, and requisite for the synthesis of collagen, which is liable for keeping the cells of the body together. It has the same amount of vitamin C present in two oranges[3]. It increases the red blood cell count and helps to promote good health. Numerous experimental evidences have shown that amla fruit possess antioxidant[4], hepatoprotective[5], hypcholesterolemic[6] and antiinflammatory activities[7].

MORPHOLOGY OF THE PLANT

It is a small medium sized tree grown up to 8 to 18 meters in height, and having asymmetrical shape with spreading branches. The leaves are oval shaped and very short in size up to 7-10 cm long. Greenish yellow color flowers and fruits are appears. The fruits are shown fleshy with sour, astringent taste with spherical in shape and six vertical bands.

AMLA: THE DIVINITY THING IN AYURVEDA

Traditionally amla was believed that amrit/ambrosia packed with all rasas thereby, it becomes an unavoidable part in ayurveda. In that sense, amalaki and hareetaki stand next to amrit since they exhibit five rasas. The fruit amla is deliberated as a rasayana for pitta. Charaka samhita mentioned amalaki is viewed one of the most potent and nutritious and also it says “Anamaki is the best rejuvenative herb”[8], and specifically observed that amla is a great rasayana that helps to protect from disease and reduce the possibilities of premature ageing. Amla has low molecular weight hydrolysable tannins (Emblicinin A and Emblicinin B, punigluconin) thereby it is considered as one of the more strong antioxidant herb in ayurveda[9].

AMLA: THE NATURAL REFRESHNER

Vitamin C present in amla is one of the main factors that can help to retrieve or refill the energy lost by body. So, the replenishment of new energy causing by amla is considered as a natural refreshner. MAJOR CONSTITUENTS IN AMLA

As an energy refiller

One teaspoon of amla powder over with honey after taking milk in the morning helps to improve freshness and strength to the body.

In anaemia therapy

Amla is a good absorption agent of iron. Ascorbic acid is highly present in amla, which helps to reduce iron deficiency[13].

Amla fights with acidity

The irregular food habits and abnormal intake of sweet, sour, spicy and oily food may cause acidity, and also tea, coffee and smoking are causing that trouble. The physiological factors are anger, grief and depression. This problem is overcome by taken of one gram of amla powder and small amount of sugar mixed with milk or water twice a day.

Action on toxins

Some of the toxins may be stored in liver by regular uptake of pain killers, antibiotics, medication and alcohol consumption. Amla prevents the body from these toxins by strengthening the liver thereby amla act as good detoxifier helps to purify the blood.
